The Black Wealth Summit is back and this year, we are coming stronger than ever! This year, we're not just equipping you with the knowledge needed to attain wealth and financial freedom – we're also providing the tools necessary to put those strategies into practice.

The event will feature expert panelists like Michelle Lilly, Blockchain & Digital Currency Investor and Educator; Cedric Nash, Author & Wealth Coach; Fabiola Fleuranvil, Real Estate & Tax Expert; and Brian Brackeen, Capital Fund Investor, who will share valuable insights on topics such as navigating digital currency, building wealth through real estate, tax strategies, and capital fund investment.
